

Please stop Sinclair Broadcasting from airing an anti-Kerry program.

It is an outrage that our public airways, which Sinclair uses free of charge, may be used for electioneering.

I urge that the FCC not allow nor be complicit in this unlawful in-kind campaign contribution by Sinclair. Sinclair's claim that an anti-Kerry documentary aired days before the election is "news" is a mockery that flouts this country's democratic system.

Please make an example of Sinclair that shows that we have an unbiased governance run by and for the people, not by and for the private interests of large corporations.
